COMTÜR

FUNCTIONAL DOORS

The right door solution for all requirements. As project partner, ComTür offers its customers a comprehensive door concept ranging from fire and smoke protection doors, sound proofing elements, climate control and burglar protection, to humid proof doors. We can supply tested functional doors in every design.

A close-up photograph of a wooden surface, likely a table or desk, showing the natural grain and knots of the wood. The wood has a warm, medium-brown tone. On the left side, a portion of a white, cylindrical object, possibly a pen or a pencil, is visible, resting on the wood. The lighting is soft, highlighting the texture of the wood.

Schotten & Hansen

UNIQUE WOODEN SURFACES

Schotten & Hansen develops and manufactures valuable and regenerable wooden surfaces for the entire interior. Custom-made by traditional craftsmanship with the latest technology and the highest quality standards.

The Surface Treatments

The surface finishing treatments of Schotten & Hansen are unique – open and breathable, elastic and warm, easy to clean and repair. Combined with the processing methods “brushed”, “rough cut” and “shrunk”, we create exceptional optics and haptics.

Schotten & Hansen products are made for a lifetime.

A Selection of Colours

Inspired by the countless colours of nature, Schotten & Hansen has the largest library of oak colours worldwide that is constantly growing. The colours displayed below serve as a pre-selection to show possible colour shades and directions.

02 Beach Shell

06 Oyster Dark

17 Linen

18 Pebble Stone

19 Driftwood

16 Black Cherry

Nature Refined

SCHOTTEN & HANSEN GMBH

Schotten & Hansen's headquarters are located in Peiting, Upper Bavaria, in the south of Germany. We develop and manufacture work in timber for every conceivable interior application, available in an enormous range of colours. The customer's wishes are always our first priority. Our portfolio includes surface-finished solutions for all kinds of interiors, handcrafted wooden flooring, care products and services.

Schotten & Hansen combine traditional craftsmanship with modern technology to create products for healthy living, exactly tailored to the customer's wishes. Our products are manufactured with great care and to the highest possible standards.

The special finishing we apply to all our products will last for generations. Our solutions are used in all kinds of places, ranging from private homes and hotels, to public buildings and the yacht-building industry.

Since the company was founded in 1984, we have been driven by a deep respect for nature, a fascination with wood as a material, and a clear commitment to innovation in our striving to produce authentic products.

Today, in close collaboration with an international network of architects, designers, craftsmen and suppliers, our customer's ambitious projects are successfully being completed all over the world.

Frame systems

The different frame systems (also fire and sound insulation proofed) allow the perfect match to the individual interior concept. The frames generally do not have visible miter joints.

Frame system (1A)
INTRA 63-75 TS40
 Jamb and casing mounted on the wall
 Split jamb
 Casing widths 63mm / 75mm

Frame system (2B)
INTRA UZ-ALU 40-52 TS40
 Jamb and casing flush with the wall
 split jamb with sub-frame and aluminum wall finishing strips
 Casing widths 40/52mm

The flush frame system *INTRA* is available in different versions such as for enhanced sound insulation, with reversed swing direction and for special solutions.

Frame system (3A)
FLAT ALU-20 TS48
 Jamb and casing flush with the wall
 Concealed block jamb with aluminum protective profile
 Casing widths 20mm

Frame system (4A)
FLAT VD
 Concealed block jamb with aluminum protective profile

The invisible frame system *FLAT VD* is integrated into the wall. Different versions (also reversed swing direction) are available.

The innovative frame system *FLAT ALU-20* with shock-resistant aluminum profile and filigree casing width 20mm is the perfect choice for public projects.

Doors define space

COM TÜR WEIMANN GMBH

For 100 years ComTür has been designing and producing dream doors made-to-measure. The family owned business was founded in 1919 as a cabinet-making business near Heilbronn in the south of Germany.

Whether a traditional panel door, a modern designed element or an arrangement of customized configurations, ComTür support the special requirements of their customers and offers comprehensive door concepts from the exterior door through to the interior doors.
