

## Wood Soap Plus Exterior

## Exterior cleaner and de-greaser

UFI: 8PXQ-E258-A004-NGA7

## Description

Wood Soap Plus Exterior is a powerful natural cleaner designed for heavily soiled and weathered outdoor wooden surfaces. It efficiently treats dirt and greying. All of the ingredients are perfume-free and readily biodegradable in fresh and salt water.

## Preparation

Cover or tape off any adjacent areas to prevent damage. Before wet cleaning, remove loose dirt with a brush or broom.

## Application

Apply the product generously to the wooden surface. Depending on the type and condition of the wooden surface, a mop, brush or spray device can be used for this purpose. Leave to react for at least 12 hours. Then clean the surface with hot water while brushing vigorously. For small areas, use a scrubbing brush. For larger areas, an electric cleaning brush, single-disc machine or wet vacuum cleaner equipped with an attached brush can be utilised. High-pressure cleaners are not recommended as they often roughen the wood considerably, leaving it looking unsightly and feeling unpleasant to the touch. The next step is to remove the dirty cleaning solution. Depending on the application, this can be done with a squeegee, mop, lint-free cloth or garden hose. Finally, wipe with clean water and allow the surface to dry completely.

1.  Apply product generously
2.  Leave to react for at least 12 h
3.  Scrub the area with hot water
4.  Absorb dirty water
5.  Wipe wet
6.  Let dry completely.

## Video Instruction

## Important Notes

Always test the product on a less visible area first. The product may change the colour appearance. Wear safety gloves and goggles. Ensure good ventilation during application. Depending on the pre-treatment of the surface, a pungent odour may form during application. This is due to the reactive soap components and disappears after some time. The product is not suitable for lacquered surfaces. A data sheet for medical personnel is available upon request.

## Coverage

Ca. 10 m<sup>2</sup>/L. Actual coverage may vary depending on the condition and absorbency of the wood surface.

## Storage

Store in a cool and dry place.

## Disposal

Dispose of in accordance with official regulations. Non-contaminated and completely emptied packaging can be recycled.

## Shelf Life

2 years from date of packaging

## Ingredients

Soap

## pH-Value

10 - 11

## Density

Ca. 1.0 kg/L

## Art.-No. / Packaging

23323 1-L-Bottle  
30685 5-L-Canister

## Made in

Germany
