## INTO THE WOODS

British kitchen designer Pluck has teamed up with German timber specialist Schotten & Hansen to create a striking new collection that seamlessly blends elegant design with the warmth of naturally pigmented wood. At the heart of this collaboration is Schotten & Hansen's beautifully crafted Douglas fir veneers, coloured with bespoke natural pigments to match Pluck's distinctive palette. Unveiled at Clerkenwell Design Week, the collection features four evocative hues – Camargue Rose, Churchhaven Blue (both shown), Kadoorie Green and Petra – each designed to celebrate the depth and movement of the wood's grain. Pluck kitchens start at £20,000.
